

# **MICRONEL**

**GLOBAL ENGINEERS**

Airports • Automotive • Aviation • Electronics • Energy + Power  
Manufacturing • Marine • MRO • Oil & Gas • Plastics • R + D • Simulation • Space

**Multi-tech services and worldwide business partnerships**  
**Hub of Excellence for latest Technologies & Applications**

## Introduction

Micronel Global Engineers was founded in India in 1986 to nurture talent, skills and innovation for executing complex and challenging projects using Scientific Knowledge and Engineering Expertise

## Business

- To design, sell and service technical products and engineering equipment of global importance
- Architecture and Design Integration of specialized Industrial Systems
- Modeling and Manufacturing of prototypes and production units
- Providing domain knowledge and product support in critical areas
- Consulting and Advisory Services for adapting Overseas Products and Technologies to local applications
- Outsourcing and setting up Joint Ventures
- Installation, commissioning and life cycle support of systems for key customers all over India
- Global bidding for Indian Projects together with International Associates on regular basis
- Distribution of imported equipment, materials, components and spares

## Products

Actuators	Insulating Material
Aircraft Control Mechanism	LED
Amplifiers	Machine Tools
Autoclaves	Measurement Devices
Autopilot	Metals & Materials
Batteries	Mixers
Bearings	Motors
Biodegradable Resins	Moulds
Broaching Machines + Tools	Nuclear Energy Equipment
Bushes	Onboard Units
Cameras	PCB Assemblies
Castings	Plastics
CNC Machines	Process Equipment
Composites	Propulsion Equipment
Control + Guidance Systems	Pumps
Couplings	RFID
Data Acquisition Systems	Robotics
Engine Components	Self Lubricated Bearings
Fasteners	Servo Systems
Fluid Power Systems	Simulators
Forgings	Software
Fuel Cells	Solar Equipment
Furnaces	Space Components
Gas Turbine	Telemetry
Generators	Test Equipment
Green Equipment	Test Rigs
Ground Handling Equipment	Thermal Devices
Hydraulic Equipment	Tooling
Hydro-mechanical Equipment	TurboMachinery
Inspection Equipment	UAV
Instrumentation	Wind Turbine

## Strengths

- Team work and Strong Planning
- Meticulous Quality and tight execution
- 50 years of continuous experience in Engineering Projects
- Strong business processes and marketing knowledge
- Track record of success and prestigious reputation
- Highly educated, trained & skilled staff with Post Graduate & Doctorate degrees
- Systematic and transparent operations
- Business centres in India (Bangalore, Mumbai, Delhi, Trivandrum) UK, Germany and USA
- Promoted and managed by Sikka family
